Targeted Action Plans

2025 to 2027

Community Attitudes

Australian Government
Department of Social Services

The Australian Government Department of Social Services wrote this.

We say **DSS** for short.

When you see the word **we** it means the DSS.

We wrote this in an easy to read way.

We use pictures to explain some ideas.

Bold

We have some words in **bold**.

This means the letters are thicker and darker.

Not bold

These are important words.

This is an Easy Read summary of another document.

This means it has the most important ideas.

You can ask for help to read this document.

You can ask

- A friend
- Family members
- A support person.

We recognise Aboriginal and Torres Strait Islander people as the **Traditional Owners** of the land we live on.

They were the **first people** to live on and use the

- Land
- Waters.

What are TAPs

The government set up Australia's Disability Strategy.

We call it ADS for short.

ADS is the governments way of working together to support people with disability to live good lives.

They do this by working with

- People with disability
- The community

This makes the community a more welcoming place for everyone.

To make it easier to work on ADS we make lots of small plans.

These small plans are part of the bigger ADS.

TAPs

The small plans are called **Targeted Action Plans**.

We call them **TAPs** for short.

All governments will work together to do TAPs.

All governments include

- Australian Government
- State and territory governments
- Local Government.

A new TAP called community **attitudes** was made this year.

Attitudes are what people

- Think
- Feel
- Believe.

We wrote this TAP so the community will

- Think
- Feel
- Believe

Good things about people with disability.

This will help people with disability

- Live good lives
- Be treated equal
- Be part of the community.

Better community attitudes

Better community attitudes will help people with disability live safe and happy lives.

The **Disability Royal Commission** looked at how people with disability have been treated.

We call it **DRC** for short.

People with disability told the DRC they wanted

- To live better lives
- Be treated better.

This is very important for everyone including people with disability.

We listened to what people with disability said to the DRC.

We wrote the community attitudes TAP.

Why this TAP

This TAP will make Australia a better place for people with disability.

It will make sure people with disability are

- Respected
- Treated as equal

- Know they belong
- Can take part in the community

- Live good lives.

What this TAP will do

This TAP will

- Make sure more people with disability become leaders

- Help **employers** understand what good workers people with disability are.

An employer is someone who pays someone to do work for them.

- Help the community to know and feel good about supporting people with disability.

- Help the community have better attitudes about people with disability.

Who will this TAP support

This TAP will support people from the community to work with people with disability.

Like

- Doctors
- Nurses

- Teachers

- The police

- The law

- Courts

- Prisons.

Including people with disability

The government wants to make sure people with disability are heard.

They will work with local disability groups to do what TAPs say.

This will make sure that governments do everything they say they will in TAPs.

It will also help people with disability keep being involved in TAPs.

You can go to our website to look at this TAP.

Reports

We have a plan to check how we are going with TAPs.

We will give updates as we go.

We will write a report every year.

It will be ready by the end of December.

We have done lots of other work.

You can look at it on our website.
